Indraprastha WORLD SCHOOL
Paschim Vihar, New Delhi-110063
Session: 2023-24
Sample Paper
Subject: English

Class: VI **Maximum Marks: 80**
Time Allowed: 3 Hours

General Instructions

- This question paper consists of 12 questions and 5 printed pages.
- All the questions are compulsory.
- Attempt the paper neatly and legibly.
- Mention the same question number in your answer sheet.

Section A (Reading)

1. Read the following passage carefully. **10**

1. Advertising is a huge global business. No business can succeed in the market without being backed by advertising. Advertising is an art of convincing the consumers about the product. It is also called persuading a person to see one's point of view. From debating in school to selling commodities on TV, persuaders try their endeavours to win an audience. The persuader needs an objective, an audience, and to reach that audience with a message. Aristotle, Greek philosopher, identified that the art of persuasion consisted of three tools: logos (appealing to logic), pathos (appealing to emotions) and ethos (appealing to ethics and credibility).

2. A film or a sports star endorsing a product adds credibility to it. For instance, film star using a beauty product to make herself look good on the screen or a sports star taking an energy drink to play well are convincing and believable. There is also the star factor added to it. We believe a popular idol more than our friends and relatives to experience the same magic. We trust them better.

3. Showing pictures of dirt, death and disease fills the audience with fear and disgust and they are likely to clean up immediately. Logic is the use of facts, information, statistics, or other evidence to make your argument more convincing. An audience will be more likely to believe you if you have data as proof for your statements. For example, an advertisement for a liquid soap might tell you that the laboratory tests have shown that their soap kills all 7,000,000 of the bacteria living on your hands right now. This piece of information might make you more likely to buy their brand of soap; simply saying, "Our soap is the best!" seems just a claim without proof.

4. Use of logic increases the speaker's credibility and brand value better; the more facts a speaker includes in his argument, the more likely you are to think that he is educated and trustworthy. Most advertisers use a combination of all three to sell a product. The next time you watch an advertisement be on the lookout for these tools of persuasion.

1.1 On the basis of your reading, choose the correct answer from the options given below.

a. Advertising can be defined as…….
   i) an art of forcing things onto customers.
   ii) a technique of trapping the customers.
   iii) a form of art that hypnotizes the customers.
   iv) an art of convincing the consumers about the product.

b. What is it that a persuader needs?
   i) A rich consumer
   ii) An objective
   iii) A nice smart phone
   iv) An intelligent mind

c. ……. identified that the art of persuasion needs three tools.
   i) Copernicus
   ii) Isaac Newton
   iii) Aristotle
   iv) William Shakespeare

d. Using a film or sports star helps endorsing a product as it adds…….. to it.
   i) money
   ii) looks
   iii) fame
   iv) credibility

e. The author explains 'a claim without proof' using the example of_____.
   i) Powder
   ii) Soap
   iii) Mobile phone
   iv) Pen

f. Logic is the use of _____.
   i) facts and statistics
   ii) belief
   iii) emotions
   iv) technology

g. Use of logic increases the speaker's credibility and ……..
   i) looks
   ii) financials
   iii) brand value
   iv) sales

h. The word which means the same as 'the power to convince' is ……..
   i) claim
   ii) proof
   iii) persuasion
   iv) technology

i. …… means the same as 'efforts.'
   i) Endeavours
   ii) Blissful
   iii) Trajectory
   iv) Dismissive

j. The word which means the same as 'trustworthiness' is……
   i) Complaint
   ii) Credibility
   iii) Amazed
   iv) Curiosity

2. Read the following passage carefully. **10**

1. From the earliest times, people have looked up at the sky and wondered about the sun, the moon and the stars. We call people who study the skies 'astronomers', and the work they do, 'astronomy'.

2. Ptolemy said that our earth was fixed and steady and at the centre of the universe, and that around the earth, the sun, the moon, the planets and the stars spin in perfect circles, turning day to night and back to day again. Nevertheless, about five hundred years ago, a Polish astronomer, Copernicus, gave a new and very strange explanation. He said that the sun, and not the earth, is the centre. The earth is just a planet, which wanders round the sun, as the other planets do. He also said that the earth spins round itself like a top and that this causes night and day.

3. People were startled by this new explanation; they found it hard to believe. Copernicus could show no proof other than mathematical calculations, for in those days there were no telescopes. It seemed obvious to everyone that the earth did not move. If the earth rotated and revolved, people asked, why weren't all of us dizzy?

4. The man who answered such questions was Galileo Galilee. Galileo said that when the earth moves, everything moves with it. Galileo, unlike Copernicus, had looked through a telescope at the skies. He had

made a telescope that could magnify objects twenty times. He now saw stars that had never been seen before. He saw that the planet Jupiter had four moons that circled it.

5. Some people were excited at his discoveries. Others, however, were suspicious and angry. The leaders of the Church asked him to stop his study of the heavenly bodies. Later, Galileo was imprisoned, and forbidden to receive friends or speak of science with them. Yet he wrote and secretly published one last book, which later inspired Isaac Newton who was born in the year that Galileo died.

6. In 1892, two hundred and fifty years after his death, the University of Pisa awarded Galileo an honorary degree. In 1979, the Pope called for a re-examination of Galileo's case; and in 1992, he publicly accepted Galileo's views. In 1995, a spacecraft named Galileo reached Jupiter, whose moons Galileo had first seen with his telescope.

2.1 On the basis of your reading, choose the correct answer from the options given below.

a. An astronomer is someone who……
   i) studies the sky.
   ii) studies gravity.
   iii) studies logic.
   iv) studies hydrosphere.

b. ……. said that our earth was fixed and steady and at the centre of the universe.
   i) Aristotle
   ii) Copernicus
   iii) Ptolemy
   iv) Isaac Newton

c. _____ awarded Galileo an honorary degree in 1892.
   i) University of Delhi
   ii) University of Pisa
   iii) Vatican City
   iv) Manchester University

d. Who said that said that the sun, and not the earth, is the centre?
   i) Copernicus
   ii) Aristotle
   iii) Newton
   iv) Ptolemy

e. People found it difficult to believe in Copernicus because…….
   i) he was not very intelligent.
   ii) he was very strange.
   iii) he could show no proof other than mathematical calculations.
   iv) his calculations were incorrect

f. ……was asked by the leaders of the Church asked him to stop his study of the heavenly bodies.
   i) Aristotle
   ii) Isaac Newton
   iii) Ptolemy
   iv) Galileo Galilee

g. Find the word that means the same as 'not allowed'.
   i) Forbidden
   ii) Prohibited
   iii) Restricted
   iv) Re-examination

h. …….. means the same as 'doubtful'.
   i) Wonder
   ii) Strange
   iii) Obvious
   iv) Suspicious

i. Complete the following statements:
   a. _____ called for a re-examination of Galileo's case.
   b. We call people who study the skies _____, and the work they do, _____.

Section B (Writing Skills)

3. Write a letter to your friend congratulating him/her on his/her success in the final examination in about 100-120 words. **5**

OR

Describe the scene at an Airport in about 100- 120 words.

4. Imagine you are an astronaut and you are travelling in a spaceship. Write a diary entry in about 100-120 words expressing about all that you see in space, your experiences, and thoughts about your family and the view of the earth from the space. **5**

OR

You are Kalpana/ Kamal, the Head boy/ girl of R.K. Public School, Rohini. Your school is organizing a Book Fair in your school premises for classes VI to VIII. Draft a notice with all the relevant details in about 50 words.

Section C (Grammar)

5. Fill in the blanks with the appropriate forms of verbs. **4**

a. She ..... in 1995. (graduate)
b. I ..... with your performance. (impress)
c. He ..... to Rita tomorrow. (write)
d. I ..... my leg, so I can't walk now. (hurt)

6.Fill in the blanks with correct degrees of comparison using the options given below. **3**

a. My new car is _____ than my old one. (pretty)
   i. as pretty as
   ii. prettiest
   iii. prettier
   iv. more pretty

b. Everyone struggles to have a _____ life in the future. (happy)
   i. happier
   ii. most happy
   iii. happiest
   iv. happy

c. My brother is _____ than me. (lucky)
   i. as lucky as
   ii. luckier
   iii. more lucky
   iv. luckiest

7. Change the following sentences from active to passive voice. **5**

a. Mary reads a book.
b. Mrs. John is baking a cake.
c. Did you invite Raghav to the party?
d. Shreya is eating an orange.
e. He will finish his homework by tomorrow.

8. Choose the appropriate verb from the brackets given below. **3**

a. Either Jani or Sita ……. (has / have) to go.
b. Both Seema and Nita …….. gone to school. (has / have)
c. There …… five pens in this box. (are / is)

Section C (Literature)

9. Read the following extracts and choose the correct options given below. **8**

a. **'Oh, hi….hello, Miss Appleton.'**
   I mumbled like a fool
   I guess I thought that teacher types
   Spend their day at school.

i. Who is Miss Appleton in the above lines?
a. Teacher b. Friend
c. Principal d. Aunt

ii. What do you understand by "I mumbled like a fool"?
a. The boy shouted at a high pitch.
b. The boy considered himself clever.
c. The boy spoke something very quietly so that no one could hear.
d. The boy went out of the grocery store.

iii. Which line is an example of a simile?
a. I guess I thought that teacher types b. I mumbled like a fool
c. 'Oh, hi….hello d. Spend their day at school.

iv. What is the rhyme scheme of the above lines?
a. abbc b. acbc
c. abcb d. free verse

b. **Before the train moved out of the Dehra station, he had nipped two fingers and tweaked a ticket inspector's ear.**

i. Who is 'he' here?
a. Grandfather b. Timothy c. Chips d. Popeye

ii. The train was heading from Dehra to _____.
a. Gwalior b. Meerut c. Rajasthan d. Lucknow

iii. The above lines has been taken from _____.
a. Saw My Teacher on Saturday b. The Ghost of the Mountains
c. Travelling with Grandfather's Zoo d. None of the above

iv. Who has written the above extract?
a. Sara Teasdale b. Zac O'Yeah
c. Dave Crawley d. Ruskin Bond

10. Answer any FIVE questions in about 30-40 words. 10

a. Why is the boy so disturbed on seeing his teacher in the grocery store?
b. What was so strange about Bidhushekhar and why?
c. According to you, who was the most lovable creature in the story "Travelling with Grandfather's Zoo?" Elaborate.
d. Who was Tashi? Why had a big crowd gathered in front of Tashi's house?
e. Who was Jeeves? Why was he called?
f. What was odd about Professor Shonku's diary?

11. Answer any THREE questions in about 50-60 words. 9

a. How was the peace of passengers destroyed at night? How did Grandfather come to their rescue?
b. What do you learn about the boy's character in the poem "I Saw my Teacher on Saturday?"
c. Explain the title "The Ghost of the Mountains."
d. What had happened to the Grandmother in the poem "The Computer Swallowed Grandmother?"

12. Answer any TWO questions in about 60-80 words. 8

a. Give a character-sketch of Rigzin.
b. Right at the beginning, the author Satyajit Ray asks us to read the diary of Professor Shonku and judge whether it was true or not. Who was Professor Shonku? What was so strange about his story?
c. What was the grandfather trying to hide from Aunt Mabel? What was ironical about her carrying the basket herself?
